

LOW-RISE PROJECT APPLICATION

Home Performance with ENERGY STAR®

NYSERDA's Home Performance with ENERGY STAR (HPwES) Low-rise component was developed to focus attention on duplexes, row houses, and other large scale housing complexes that, while performing as one to four family residential buildings, were until recently underserved. HPwES Low-rise projects target both Market Rate (households earning greater than 80% of the Area Median Income) and Assisted (households with incomes between 60%-80% of the Area Median Income) qualified residential buildings. Low-rise projects with households earning below 60% of the State Median Income may be eligible to participate in NYSERDA's EmPower New York Program.

PROPERTY OWNER

Property Owner/Company Name _____

Contact: Last Name _____ First Name _____ M.I. _____ Contact Title _____

Address _____ City _____ State _____ ZIP+4 _____ County _____

Primary Phone Number _____ Secondary Phone Number _____ Email Address _____

Is the contact listed above a legal signatory* for the property ownership? Yes No If No, who is the legal signatory for this property?
*Legal Signatories are able to bind the property owner under contract.

Name _____ Title _____

Ownership type: Private (for profit) Private (non-profit) Public/Municipal Co-operative

PARTICIPATING HPwES CONTRACTOR

Legal Company Name _____ Primary Contact for this Project _____ Contact Title _____

Address _____ City _____ State _____ ZIP _____

SUPPLEMENTAL PROJECT INFORMATION

In addition to this Low-rise Application, the Contractor shall include photographs from the North, South, East and West Elevations of each unique building type. If available, an aerial photograph of the project location (i.e. Google Maps if available) should be provided indicating the buildings included as part of this Low-rise Project. Also, the contractor shall include photographs of the existing DHW and HVAC systems and, if accessible, photographs of representative unit types, attic spaces, basement areas and other scope-relevant areas as needed.

Please ensure that all the necessary forms including income eligibility documentation (if required), photographs, modeling data (if available), and any additional sheets used to describe the project are included along with this HPwES Low-rise Project Application for submission.

SIGNATURES

I have read, understood and agree to comply with the guidelines and requirements of the Home Performance with ENERGY STAR for this Low-rise Project Application. The income eligibility documentation, if applicable, submitted in support of this Low-rise Project Application presents true and accurate information, to the best of my knowledge.
